Chapter 1
Publications

Section I
Introduction

1-1. General. This publication contains an index of current National Training Center (NTC) supplements, regulations, pamphlets, memorandums, and circulars, and forms published by this headquarters.

1-2. Supply of Publications. Publications listed herein may be obtained from the on-line electronic library through the Local Area Network. For mass quantities requestors must submit a hard copy of the publication and a DD Form 844, Requisition for Local Reproduction, Directorate of Information Management (DOIM) Publications Officer, Building 13. Table 1-1 provides information on the uses and types of administrative publications utilized on the NTC & Fort Irwin.

1-3. Publishing Guidelines. The following are the general requirements for publishing of numbered NTC publications:

a. All publications will be coordinated with the DOIM, Administrative Services Section, Building 13.

b. All publications will be typed and prepared for publication by the proponent following the specifications outlined in NTC Regulation 25-30-1 and provide the Administrative Services Section with a electronic copy of the final product. The Administrative Services Section will make minor corrections; however, the proponent is responsible for correcting any gross errors.

c. Each directorate is responsible for the staffing of their publication according to guidance provided in NTC Pamphlet 25-50, Staff Procedures Guide. A copy of all staffing actions will be given to the Administrative Services Section to ensure that nonconcurrences have been resolved and for historical purposes.

d. The DOIM is considered to be the authenticator of all administrative publications, except NTC Policy Letters. The Chief of Staff can at any time opt to sign the publications as authenticator without the concurrence of the DOIM. This does not give any activity the authority to bypass the DOIM and process their publication directly through the Chief of Staff. All publications must be reviewed by the DOIM Publications Officer.

Table 1-1
The uses and types of administrative publications

Type of publication: NTC Regulation
Type of Material: Directive
Uses: NTC Regulations establish NTC-wide policy, assign missions and responsibilities, delegate authority, and set objectives. The prescribe procedures in detail needed to make sure basic policies are carried out uniformly throughout the NTC & Fort Irwin and implement public law, policy guidance, and instructions from higher headquarters or other Government agencies. They prescribe forms.
Term: Permanent with annual review.
Audience: NTC & Fort Irwin
Restrictions: Effective until superseded or rescinded.

Type of publication: Standard NTC Pamphlet
Type of material: Informational or reference
Uses: Standard pamphlets are used to publish information needed to carry out policies and procedures prescribed by an regulation. Such information may be specific procedures, special guidelines, or reference data. They prescribe forms.
Term: Permanent with annual review.
Audience: NTC & Fort Irwin
Restrictions: A standard NTC pamphlet is not a directive publication. Therefore, it may not be used to prescribe policies or responsibilities. This type of pamphlet may be used only to explain the policies, procedures, and responsibilities set by a regulation. Effective until superseded or rescinded.
Other: A standard pamphlet is organized and printed in the same format as a NTC Regulation.

Type of publication: NTC Circular
Type of material: Directive or informational
Uses: NTC Circulars are used to publish instructions for one-time actions that apply NTC & Fort Irwin wide, general information or policies and procedures that will be in effect for 2 years or less, and temporary notices (for example, annual awards programs). They prescribe forms.
Term: 2 years maximum
Audience: NTC & Fort Irwin
Restrictions: NTC Circulars may not be used to change the information in permanent publications

such as regulations, pamphlets or to publish long-term policies or procedures.
Other: A NTC Circular expires 2 years after the date it is issued; however, it may be given an earlier expiration date if it need not remain in effect for 2 full years.

Type of publication: Numbered NTC Policy Letter
Type of material: Directive or informational
Uses: Numbered NTC Policy Letters are used to convey short-term directives or general information.
Term: 2 years maximum
Audience: NTC & Fort Irwin
Restrictions: A numbered NTC Policy letter is not used to publish long-term policies or procedures, to direct continuing practices or actions, or to change a permanent publication. It is also not used to prescribe forms. Information contained in most directive NTC Policy letters is expected to be incorporated into the next change or revision to an appropriate NTC Regulation, at which time the NTC Policy letter will be superseded.
Other: A numbered NTC Policy letter is effective for 2 years from the date of issue; however, it may be given a earlier expiration date if it need not remain in effect for 2 full years. The expiration date on a NTC Policy letter may be extended on a case-by-case basis at the discretion of the Commanding General.

Type of publication: Standard Operating Procedures
Type of Material: Informational or reference
Uses: A Standard Operating Procedure (SOP) is used internally within an unit/activity to publish information regarding the "how to" process within their organization. It cannot be directive in nature or set policy.
Term: 2 years maximum
Audience: Specific unit/activity
Restrictions: A SOP is not a directive publication; therefore, it may not be used to prescribe policies or responsibilities.
Other: An SOP is usually effective for 2 years from the date of issue.

CIR 210-1	Mar 96	Expired – no replacement
CIR 672-2	Apr 96	Superseded by NTC Reg 350-12

Chapter 2
Forms

Section I
Introduction

2-1. General. This section contains a list of NTC blank forms and overprints.

2-2. Publishing Guidelines. The following is a guideline for the publishing of forms:

a. All forms will be coordinated with the DOIM Forms Officer, Administrative Services Section, Building 13.

b. All forms will meet the requirements in AR 25-30 and DA Pam 25-31.

c. All forms will be issued a control number by the Forms Officer. Without a valid control number your form is not authorized for use. Exceptions will be granted on a case basis only. In addition, any requests for reproduction of a form must be processed through the Forms Manager.

2-3. Local Reproduction. Forms identified with an "R" after the number are authorized for local reproduction by using organizations, units, and activities office copiers. If the "R" form is beyond the unit's (user) reproduction capability, a DD Form 844, Requisition for Local Reproduction, should be submitted to the Forms Officer, Building 13.

2-4. Supply of Forms. Forms are designed in the current acceptable electronic format and will be release to the network (\\cdtower\eforms) according to proponent requirements and confirmation of fill capability. To obtain a stockage of existing NTC Forms a DD form 844 should be submitted to the Forms Officer, Building 13. All activities/ directorates/units are responsible for ordering and maintaining stockage with appropriate security measures of all forms to include, but not limited to Department of Defense (DD), Department of Army (DA), Standard Forms (SF), and Optional Forms (OF). A list of Activity/Unit Publication Control Managers are listed in appendix B.

2-5. Symbol Guide. The following listed forms are current as of 1 October 1998. Forms identified with the (#) symbol contain privacy act statement. The (🖫) symbol indicates designed in electronic format (FormFlow).
