FIELD ARTILLERY NCO TRENDS AT THE NTC

SGM SMITH WOLF 40

This is what happens when we do not properly clear the vehicle!

Soldiers only do what we let them do… We must train what right is!

One hour after LD, the uniform is MOPP3! This is an officer and an NCO!

Part of TLP’s is checking your troops!

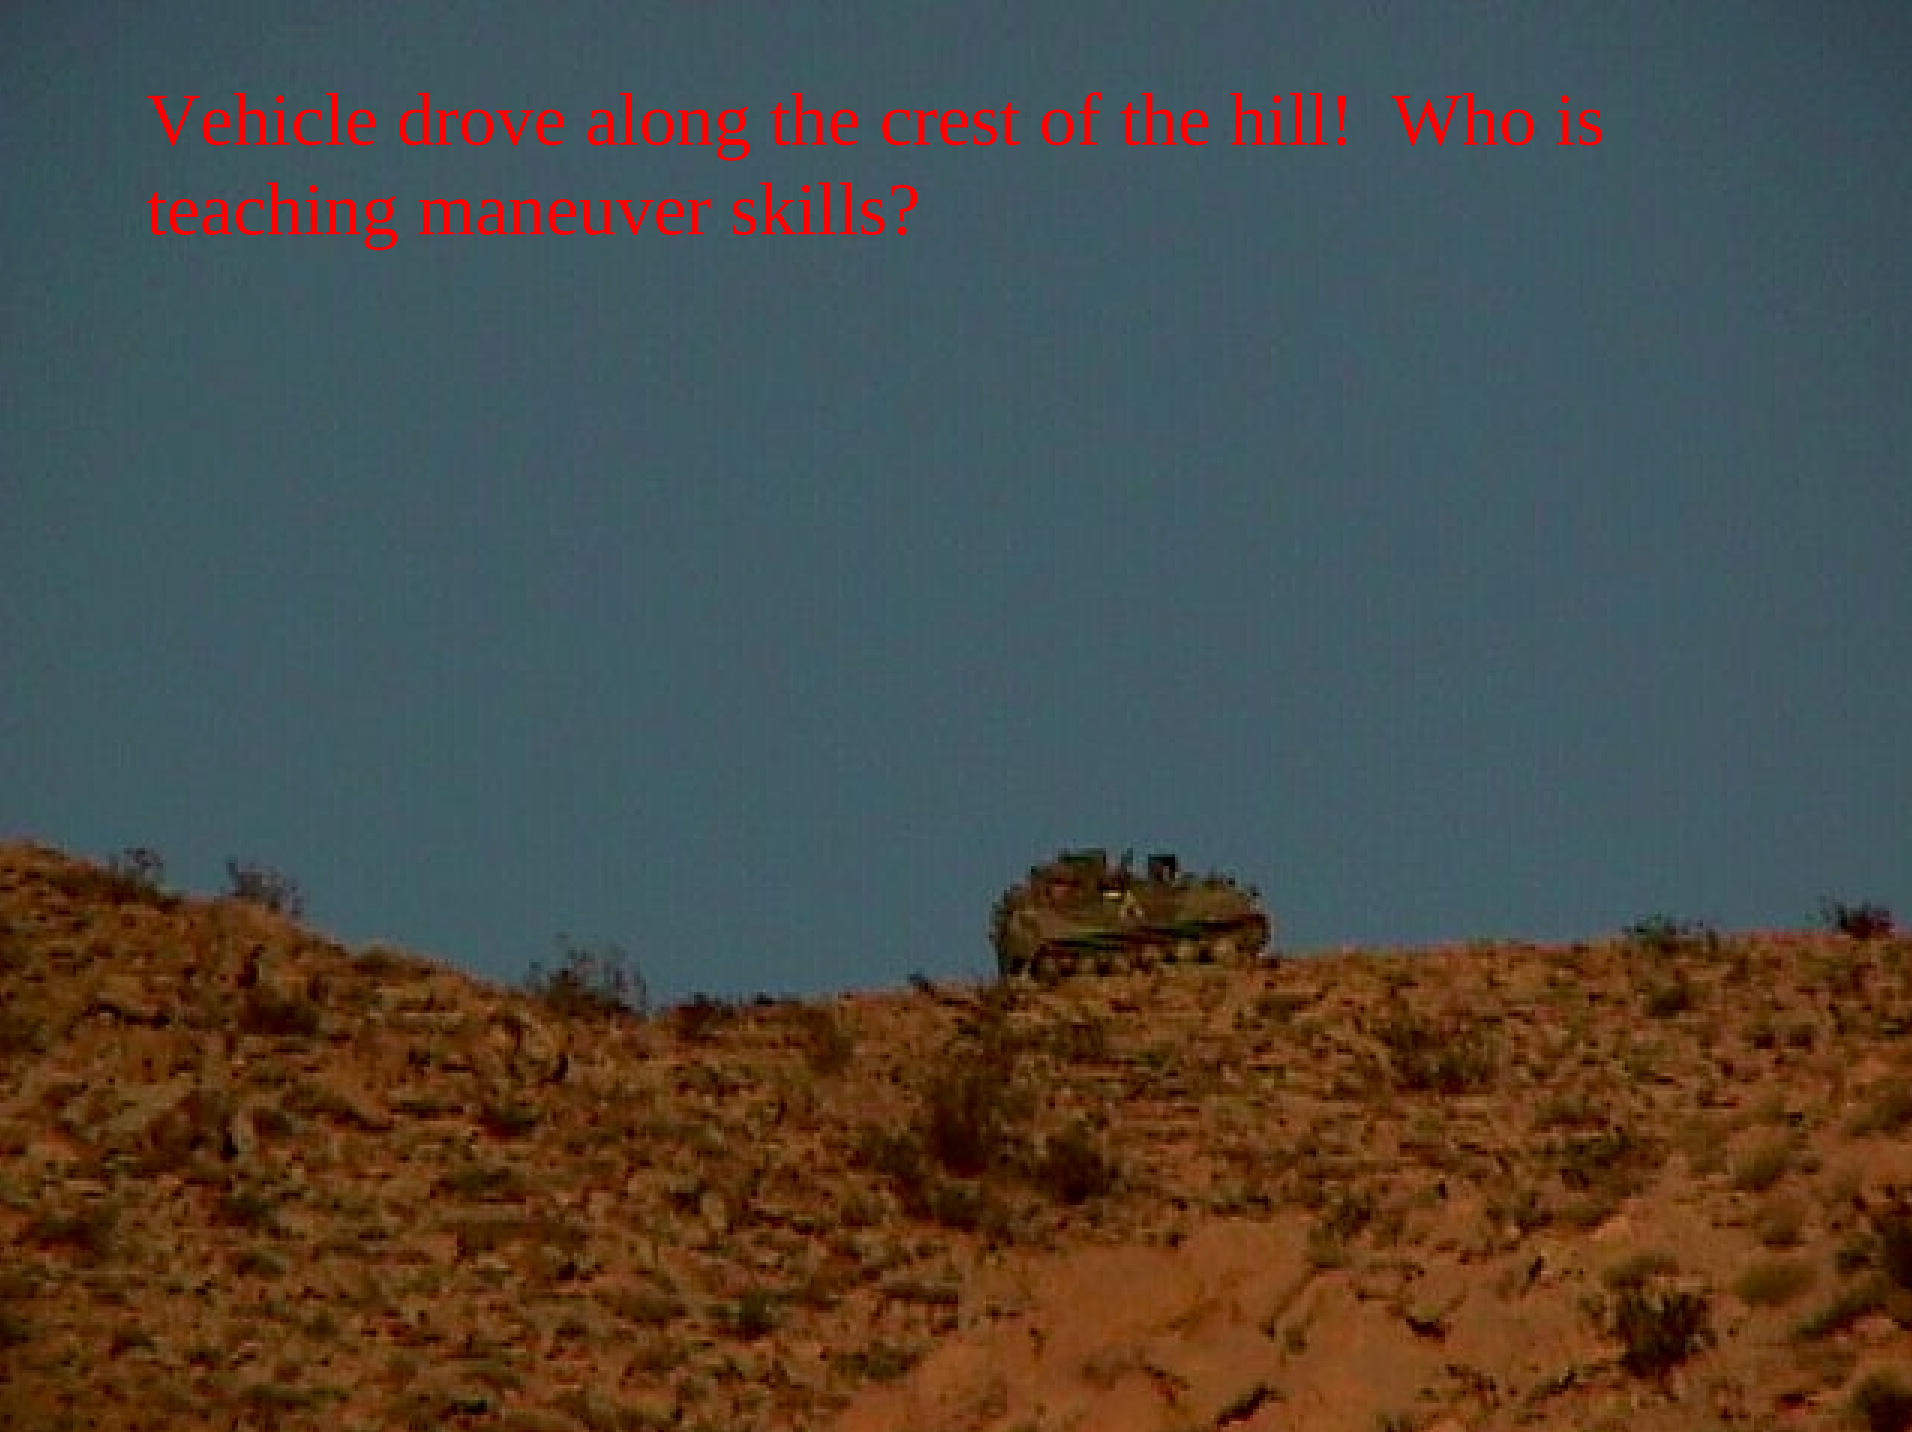
LOGPAC…Proper PCC/PCI will prevent this!
Note: fuel-food

Is this the standard for a fighting position?

3 days in position …no cover…
improper M-8 placement!

WHAT IS WRONG WITH THIS PICTURE?

Vehicle drove along the crest of the hill! Who is teaching maneuver skills?



When we do not train them this is how
they come home!

NCO's doing what they are trained to do! Seek responsibility, and be part of the team!
